

ISRAEL'S CHRONOLOGY PYRAMID

Section IV – Part 2 – Series: *Wonderful Number of Sacred Canon*

By
Doug Krieger

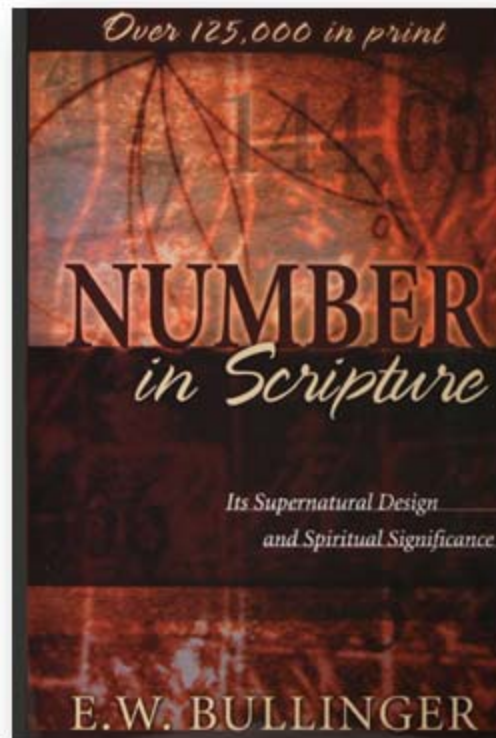

In ancient times science was dominated and predicated upon “number.” Today in our technologically advanced world, “number” is but a dull quantitative abstract having little to do with the value of the universe, nor of its association to the objects and chronologies of antiquity with its forms and motion.

The ancient world was a living, vibrant, echoing reflection of divine calibration and design...the epitome of reason and spiritual substance able to be comprehended by the pinnacle of divine creation, man.

Mathematical studies dominated the ancient world – as [John Michell](#) rightly observes:

“At some very early period, by a process quite beyond explanation, certain groups of numbers were brought together and codified. Thus was created that numerical standard, or canon of proportion, which was at the root of all ancient cultures and was everywhere attributed to some form of miraculous revelation. It was taken to be the nucleus and activating principle of number generally, a summary of all the types of progression and relationships that occur within the field of number and thus a faithful image of the numerically created universe.” (*The Dimensions of Paradise, Sacred Geometry, Ancient Science, and the Heavenly Order on Earth*, John Michell, 2008 Edition, In Quest of the Canon, p. 1)

Thus, number proliferated the meaning of the universe. Its inscription into Sacred Texts did likewise – the oldest and most elaborately constructed over 1600 years in its composition, with some [40 authors](#), is the most famous of all Sacred Texts, the

Bible, with its 66 volumes, 39 of Hebrew vintage and 27 of the Christian Sacred Text; although, among Jewish volumes some texts have been consolidated so that the Hebrew Sacred Canon can appear as “[24](#)” and thus, together the total is “51.”

This article, however, among all the rich reflections recorded in Holy Writ, centers on the chronological journey of the Israelites and its astounding compatibility with their ultimate destination: The New Jerusalem!

Thus, we have borrowed from the pioneer work of [E. W. Bullinger](#) in his classic: *Number in Scripture, Its Supernatural Design and Spiritual Significance*, cir. late 1800s. It is from this text that we have derived Israel’s chronological journey from Abraham to Messiah, the Prince... a journey of some 1953 years (“years which must be biblically calculated”), to be capped off with the 7-year, Seventieth Week of Daniel, yet future for a total of 1960 years. And, as is the “tradition” in expressing Sacred Geometric concepts and realities, I have included a dynamic chart dubbed: ISRAEL’S CHRONOLOGY PYRAMID for this period of time and have, as a result, extrapolated those conclusions which integrate Israel’s journey to the New Jerusalem, for Israel is most definitely entitled in that upon the Holy City’s twelve gates are inscribed the Names of the Twelve Tribes of Israel wherein the Nations shall so enter the Celestial City “descending from heaven.”

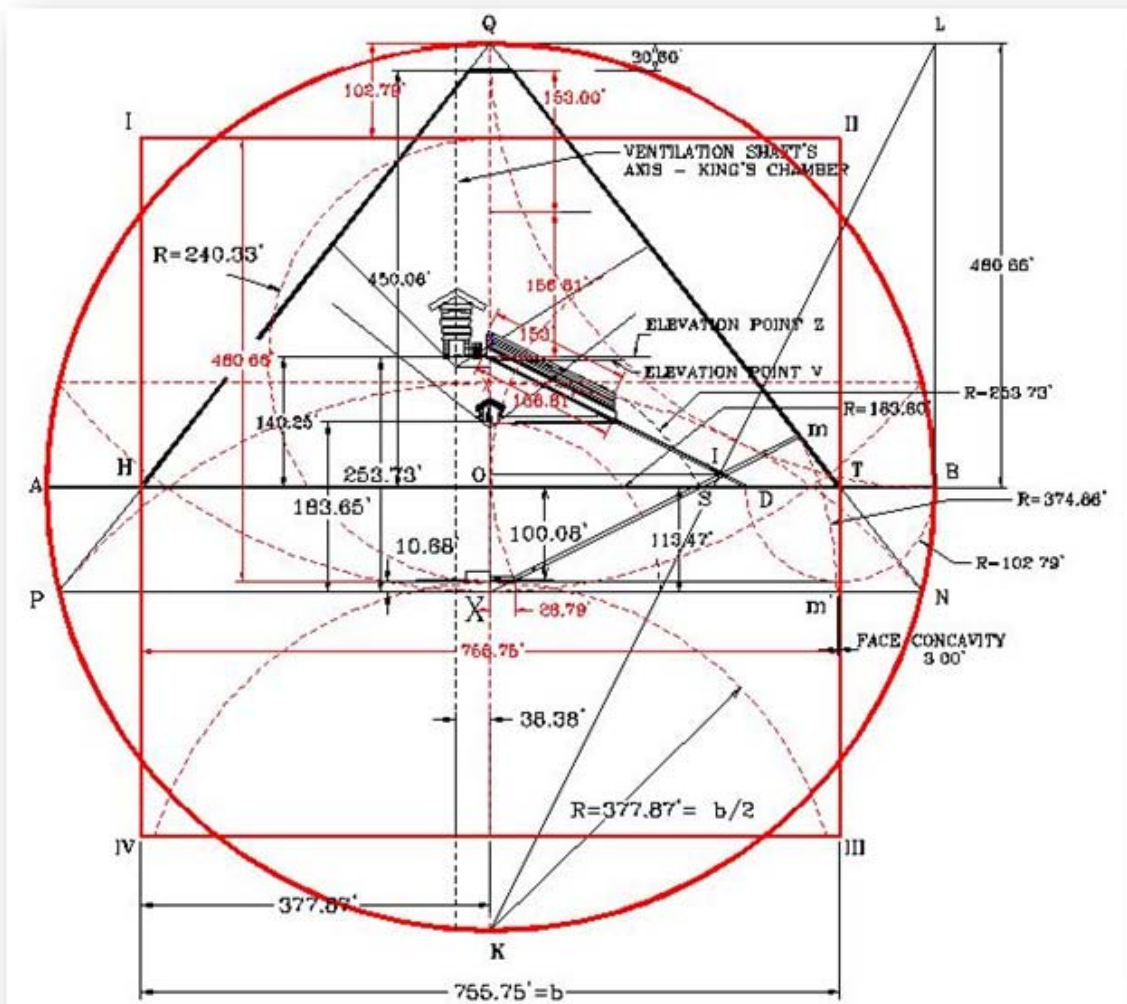

It is somewhat remarkable that these 196 blocks in ten-year squares can be so easily distributed in the form of a pyramid in that the Great Pyramid of Giza is in this author’s deliberation, perhaps the foremost abiding earthly structure, no less one of the seven wonders of the world, still standing, and scripturally acclaimed to be a Pillar unto the LORD, in the Land of Egypt ([Isaiah 19:19-20](#)).

Indeed, I fully expect to be excoriated by some whose wisdom on these matters exceeds my own and/or defamed as a [border-heretic as was E. W. Bullinger](#), to which I would gladly rejoice to bare a similar shame that my Lord through this defamation would be glorified thereby! Frankly, I am bemused by some, even within the discernment ministry, who have taken upon themselves the invidious umbrage to discharge nonsensical criticism upon that which they know so little – not that I know so much – but how wasted are their stupidities, so relished are they upon this part of the Lord’s vineyard which perhaps is more able to disquiet the Gnostic and claim that Sacred Measurement is and should be dominated by those having once been enlighten and tasted of the Life to come!

That said, there is a growing number of souls who have broken and continue to break out of those boxes which inhibit insight into the Scripture of Truth and can

discern for themselves whether these things be so. May the Lord and His Holy Spirit bare witness in your spirit to that which is of Him and discard that which is not of Him... for as long as we abide upon this planet, we remain fallible but as His grace abounds, may it much more abound, as these, we affirm, truths are noised abroad to His people and to a generation crying out for substance in the midst of fluff everywhere they turn.

Measurements of the New Jerusalem and the Great Pyramid of Giza – Backdrop

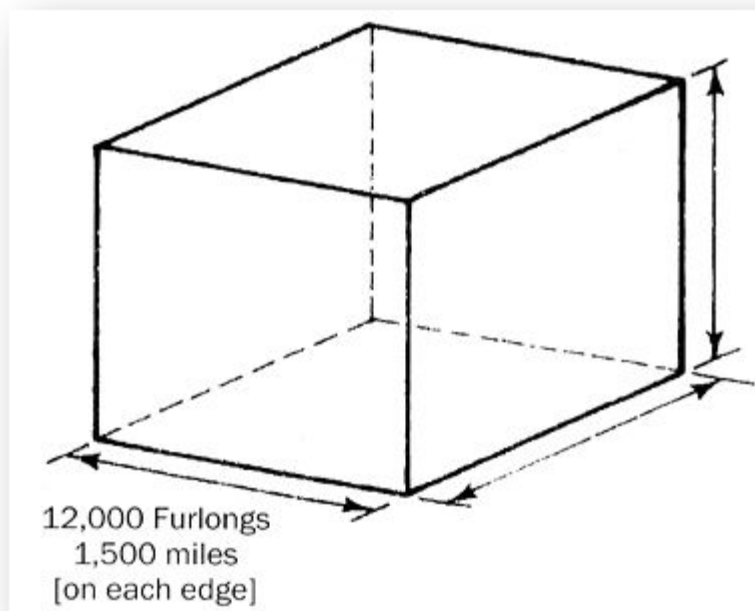

For those of you determining these geometric relationships without a fundamental awareness of how the biblical New Jerusalem, coupled with that Monument to the LORD in the land of Egypt, have, in point of geometric, dimensional fact, mirrored

one another, we'll prepare the ground a bit here. This article has a veritable geometric inter-relationship with the ancient Israelites from Abraham's birth "until Messiah the Prince" as found in [Daniel 9:25](#) at the "suffering Servant's first advent" and whose further historic journey culminates in Daniel's Seventieth Week and the ultimate "Behold the Man, Whose Name is Branch" as recorded in Zechariah's prophetic unveiling, whereby His Second Advent is disclosed ([Zechariah 6:12-15](#)).

The cardinal numbers of the New Jerusalem from [Revelation 21:16-17](#) are designed for extrapolation and an understanding of the metrology of the British whose nomenclature is used to translate Greek words into Elizabethan verbiage – verbiage which was especially researched and preserved during the expansion of the British Empire juxtaposed to either the French or the Spanish at a time when the New World's exploration was rampant.

It was under an [Act of Parliament in 1824](#) which made the Imperial Mile the standard of measurement for the British Empire, along with all its accoutrements (furlong, stadia, yard, inch, pound, pint, rod, etc.), including the differentiation of the Statute Mile (5280') and the Nautical Mile (6072' using a factor of 1.15; however, a more accurate measurement is 6076' or $6 \times 7 \times 6 = 252$ which is the

measurement of the Sacred Cubit of 25.20" so both measurements have significance) and all the astronomical implications associated thereto, the law of the Empire and *ipso facto* the standard for North America.

With that in mind – and the mysterious calculation wherein the "inch" was so determined and its extension, the Sacred Cubit (25.20") – that we arrive at our New Jerusalem's exquisite

measurements. One of the edges of the New Jerusalem is stated as 12,000 furlongs and its wall as 144 cubits; as well as 12 gates and 12 foundations, 12 angels at the

gates and 12 manner of fruit from the Tree of Life, among other numeric values. With so little given – the profundity of these measures wherein so much is derived is somewhat astonishing.

The measurement of a furlong has long been established to be 660' (or 220 yards) x 12,000 furlongs from [Revelation 21:16](#) = 7,920,000 Linear Feet / 5280 (feet in a Statute Mile) = 1,500 Linear Miles x 12 Edges of a Cubed New Jerusalem (for it is a cube in spite of well-meaning brethren who contend it is pyramidal in shape in that “four-square” means what it says, not just its base in that its length, height and breadth are so designated; therefore, it is most assuredly a three-dimensional cube whose dynamic is, nevertheless, revealed in the Great Pyramid of Giza) = 18,000 Linear Miles and *ipso facto* we have the “18” New Jerusalem Standard of measurement or the 18 NJS.

The reflection of the Great Pyramid of Giza as a past, present and future “Pillar unto the LORD at the border (lit. Giza) of Egypt” is not an expression of Nephilim or Megalithic deceit and persuasion. Indeed such appear to have occurred throughout the ancient world, but none duplicate the incredibility of the Great Pyramid of Giza in the Land of Egypt (itself a [Step Pyramid](#) – outside of the Egyptian cultural bias), which we affirm was designed and built by the [Shepherd Kings](#) (e.g., Melchisedec, Enoch, Job, sons of Seth, etc.) under a more enlightened mindset stemming from Noah’s cubit-wise design of the Ark – which Ark bears to this day measurements of profound magnitude and which in and of themselves are reflected in the New Jerusalem’s proportions...a somewhat astonishing discovery as well (but later).

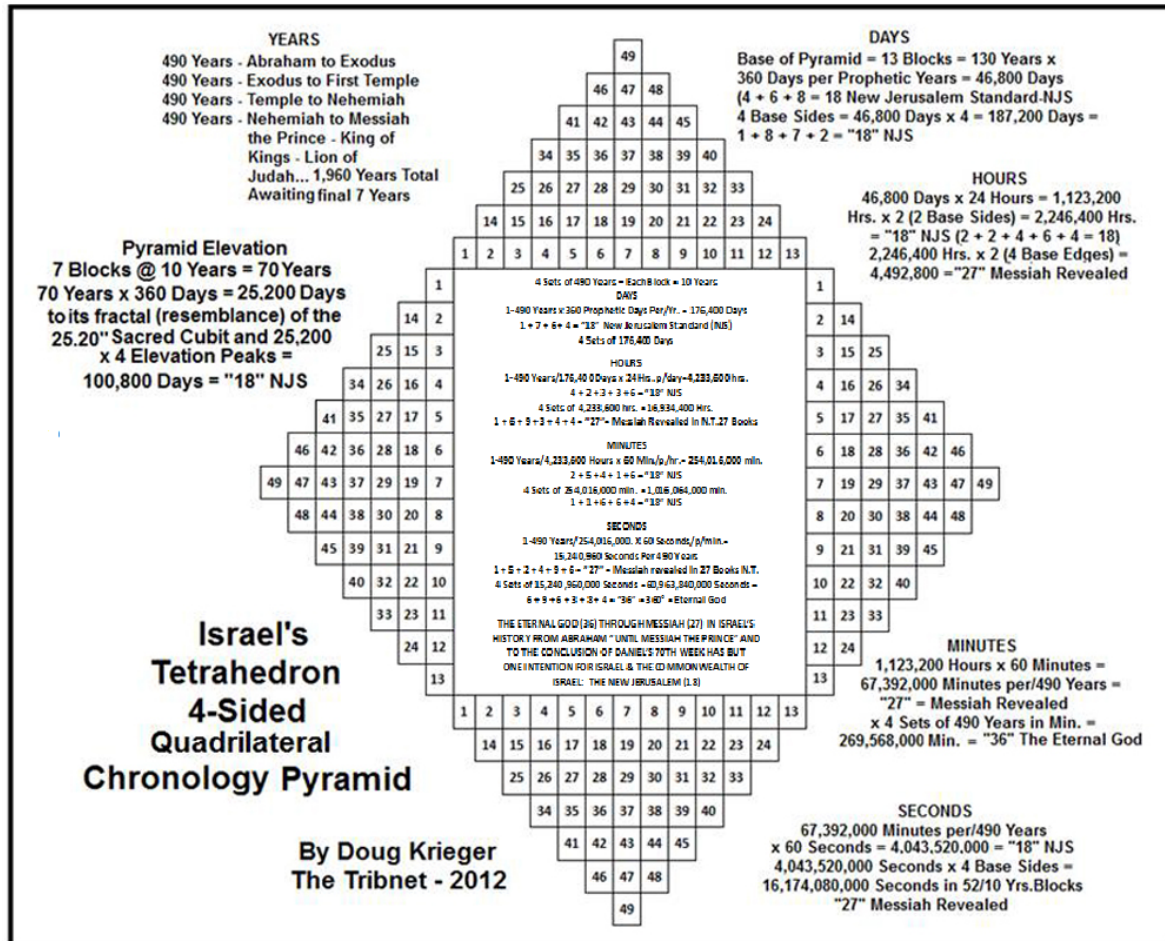

Furthermore, the prolific “12s” sighted throughout the New Jerusalem and seen in the New Jerusalem Wall (NJW) of 144 cubits (i.e., $12 \times 12 = 144$) fairly well wraps up the divine essentials of this most glorious object wherein 144 cubits = 144×25.20 ” = 3,628.8 inches whose “wall measurement” (for its height, depth and/or breadth is NOT given – simply stated: The Wall of the New Jerusalem is 144 cubits.) is a “fractal” of the Great Pyramid of Giza’s (GPG) base perimeter wherein $756' \times 4 = 3024' \times 12$ ” = 36,288 linear inches; wherefore, is the Wall of the New Jerusalem reflected in the most essential measurement of the GPG. Finally, the reoccurrence of the number set “24” depicting the 24 Elders of the New Jerusalem and the ubiquitous numbers 27, 30 and 33, all of which declare on behalf of Messiah (27 books of the Christian Sacred Canon, 30 years of age at the commencement of Messiah’s ministry and 33 “unto Messiah the Prince” entered into Jerusalem in accordance with [Daniel 9:25](#), at the conclusion of His ministry (age 33) and thereafter Messiah was “cut off” (4 days thereafter His Triumphal

Israel's Chronology Pyramid is a geometric design whose 196-ten-year time frames broken down into four sets of 490 years each, totaling 1,960 years, give an elaborate interpretation whereby these four epochs of time constitute the Dimensions of Paradise – the New Jerusalem – as reflected in the Great Pyramid of Giza. It is the express intention of the author to construct a geometric figure that amplifies the measurements of the New Jerusalem and to contrast them with the GPG, as well as to elucidate its own pyramidal attributes peculiar to these four epochs of Israel's history from the birth of Abraham to Messiah the Prince – Palm Sunday (terminus of the 69th Week of Daniel – [Daniel 9:26](#) – wherein “after the sixty-two weeks (some four days later) Messiah shall be cut off (lit. “suffer the death penalty”), but not for Himself”) with the final Seventieth Week of Daniel, yet future, which would constitute the final seven years of the fourth 490-year time frame.

The astounding distribution of these ten-year blocks (some 196 of them) perfectly fit into a “blocked geometric pyramidal object” which can be manipulated mathematically as a triangulation of measurement with base measurements and elevation using each block as a “unit of measurement” consisting of 1 Block = 10 Prophetic 360-day years; therefore, its base is 27 and its elevation is 14 with the pyramid as a triangle so that its legs (lateral edges) measure 19.3713 units. Likewise, given these “unit measurements” the triangle's 180° interior angles are broken down into two lower angles of 46° each (given the sides both at 19.3713 units) and its peak at 88° - therefore: $46^\circ + 46^\circ + 88^\circ = 180^\circ$.

The diagram below “unfolds” the pyramid model into a “Tetrahedron-Four-Sided Quadrilateral Pyramid” with the pyramid's base filled with data derived from the 10-Year time frame blocks which comprise the pyramid. Here we have similar configurations; however, instead of the original 14 block elevation and all 1,960 years compacted into a one-dimensional pyramid constituting some 196 blocks each with 10 years – our quadrilateral has 49 blocks in each of its fold-out sections and instead of a base of 27 blocks, each of its sections has a base of 13 blocks and an elevation of 7 blocks; therefore, we have shown the 490-year time blocks in these 4 separate sections in that the pyramid is truly three-dimensional and is a tetrahedron. This gives us an opportunity to reflect upon Israel's history in “time segments” of “years” (which is the most accurate assessment, given the four 490-year time frames totaling some 1,960 years or $490 \text{ years} \times 4 = 1,960 \text{ years}$); however, the Almighty has made time configured in seconds, minutes, hours and days – let alone months and week. Naturally, our “ratios” from base to elevation are skewed. In the first one-dimensional of 27/14 (27 base row-blocks / 14 block elevation) we arrive at a ratio of 1.928**571428** and using 13/7 in our Tetrahedron

we arrive at a ratio of **1.8571428** – of interest is the repetition of the “571428” in both ratios whereas in the Tetrahedron we have “1.8” or “18” as an immediate number set “estranged” from the common repetition of both ratios of “571428” which ratio (13/7) exemplifies the measurement of the New Jerusalem’s “18” whereas the “571428” amplifies the “27” (i.e., 5 + 7 + 1 + 4 + 2 + 8 = 27) of Messiah in both ratios; ipso facto, the New Jerusalem (18) is affected by the full revelation of Messiah in the Christian Sacred Canon of 27 volumes (27).

We have emphasized the years, days, hours, minutes and seconds; however, the base of the above pyramid is most interesting in that there are blocks of 13 each 10-year time frames or 130 years each base edge x 4 base edges = 520 years and 52 weeks of a solar year is a “fractal” of 520 years. So, the pyramid’s base could constitute an expression of a year’s worth of weeks in a solar calendar. Furthermore, there are 12 “prophetic months” per 1 Prophetic Year; therefore, 520 years x 12 prophetic months = 6,240 months or the “12” (i.e., 6 + 2 + 4 = 12) which is the dominant number of the New Jerusalem (12 Gates, 12 Foundations, 12

Manner of Fruit, etc.); however, when we add the elevation of the pyramid's 7 blocks of 10 years each or 70 years x 12 months = 840 years we immediately notice that the 6,240 months (520 years) of the base edge which adds up to "12" is matched by its elevation's 70 years x 12 months per year = 840 months which is another "12" (as in 8 + 4 = 12); therefore, 12 + 12 = "24" or 12 x 12 = 144 ... both "24" and "144" constitute major "number sets" of the New Jerusalem: The "24" pre-figure the 24 Elders or 12 Gates having the names of the 12 Patriarchs of Israel and the 12 Foundations having the names of the 12 Apostles of the Lamb – i.e., the Church; consequently, Israel and the Church can be seen in the "24" (12 + 12) and the Wall of the New Jerusalem can be seen in the 144 (Revelation 21:17) or 12 x 12 = 144.

I am wholly aware of the esoteric nature of these pyramidal/geometric configurations; however, I find it compelling to illustrate Israel's history and its meaning in a geometric object which has Biblical significance in that the Great Pyramid of Giza is said to be: "In that day...an altar to the LORD in the midst of the land of Egypt, and a pillar to the LORD at its border (i.e., lit. Giza = Border)" ([Isaiah 19:19](#)). Likewise, to extrapolate Israel's history in precise time sequences of days, weeks, months, seconds, hours, etc., allows us a somewhat awesome expression of either "coincidence" or of divine witness in time – that "there should be time no longer" ([Revelation 10:6](#)) wherein it declares that "in the days of the sounding of the seventh angel, when he is about to sound, the mystery of God would be finished" ([Revelation 10:7](#)); and that the word "time" (i.e., "*Chronos*" from whence we derive the word "chronology") pertains to "a space of time" or "marks quantity" of time (Strong's 5550); therefore, this "sounding of the seventh angel" closes out, we affirm, the final 1,290th Day of Daniel's additional 30-days past the commencement of the "sounding" and/or the end of the Seventieth Week but the blast of the trumpet extends for a 30-day time frame until the 1,290th Day and ushers in the coming of the Lion of the Tribe of Judah, the Messiah and is the terminus of the final seven years of the final 490-year history of Israel (see [Daniel 12:11](#) regarding the final 30-days of the "Wrath of the Lamb" and [Daniel 12:12](#) which describes the 1,335th day or the 45-days of Blessing when Messiah will unveil Himself to Israel: "Blessed is He that comes in the Name of the Lord, Hosanna!").

Elevation = 14 ICP Units (Samples of the "New Jerusalem Matrix" – the NJM)

The Elevation of the Israel Chronology Pyramid (ICP) is 14 (blocks):

1. 14×12 (“12” is a dominant “number” of the New Jerusalem) = $168 = 1 + 6 + 8 = 15 =$ One Edge of the New Jerusalem (as in $660' = 1$ furlong $\times 12,000$ furlongs = $7,920,000' / 5280 = 1,500$ Miles = 15 NJE; likewise, 1,500 miles $\times 12$ edges of the cubed New Jerusalem = 18,000 miles = 18 New Jerusalem Standard of Measurement and $18,000 \times 5,280'$ (1 Statute Mile) = $95,040,000'$ which is a “fractal” of the distance at apogee from the Earth to the Sun and $9 + 5 + 4 = 18$ NJS)
2. 14×144 (The Wall of the New Jerusalem) = 2016
3. $2016 = 216 =$ The Name of God found in [Exodus 14:19-21](#) (Hebrew Gematria, 72 per each verse)
4. 2160 = the Diameter of the Moon in Statute Miles
5. $216 = 3^\circ$ or 72 years $\times 3 = 216$ Years of the Great Processional/Mazzaroth/Zodiac
6. 21,600 is the Circumference of the Earth in Nautical Miles
7. $14 \times 216 = 3024$ (“3024” = Perimeter in feet of the Great Pyramid of Giza)
8. 14×24 (“24” = the 24 Elders of the Apocalypse and/or the 12 Patriarchs/12 Tribes of Israel and the 12 Apostles of the Lamb of the New Jerusalem – i.e., the Holy City’s Gates (Israel) and Foundations (Church))
9. $14 \times 25.20'$ (25.20” is the measurement of the Sacred Cubit) = $3528 = 18$ NJS ($3 + 5 + 2 + 8 = 18$ New Jerusalem Standard*)
10. 14×27 (27 = the Revelation of Messiah in Sacred Christian Canon’s 27 volumes) = $378 = 3 + 7 + 8 = 18$ New Jerusalem Standard (NJS)
11. $14 \times \pi$ ($22/7$ or 3.14) = $11,077.92 = 1 + 1 + 7 + 7 + 9 + 2 =$ “27” (The number of Sacred Christian Canon volumes revealing the Messiah.)
12. $14 \times 30 = 420$ and $14 \times 33 = 462$; thus: $420 + 462 = 882 = 8 + 8 + 2 = 18$ NJS
(Messiah’s Ministry Commencement @ 30 Years of Age + “until Messiah, the Prince” @ 33 Years of Age = the 18 NJS)
13. 14×39 (39 = the Hebrew Sacred Canon of 39 volumes) = $546 = 5 + 4 + 6 = 15 =$ One Edge of the New Jerusalem (as in $12,000$ furlongs $\times 660' = 7,920,000' / 5280' = 1,500$ miles = one of 12 edges of the cubed Holy City)
14. 14×480 (480’ is the elevation of the Great Pyramid of Giza – here we discover an “interaction” resulting in the edge of the New Jerusalem) = $6720 = 6 + 7 + 2 = 15$ NJEdge
15. 14×66 (“66” = the 66 Sacred Texts of Hebrew/Christian Canon and the 66 as in the 660’ furlong of the Edge of the New Jerusalem) = $924 = 9 + 2 + 4 = 15$ NJEdge
16. 14×72 (“72” constitutes 1% of the Mazzaroth as in 25,920 years Great Precessional / $360^\circ = 72$ years and is attributed in Hebrew Gematria to the Name of God as found in [Exodus 14:19-21](#))

17. 14×792 (“792” is the Diameter of the Earth in Statute Miles and the number in feet of one edge of the New Jerusalem as in 7,920,000’) = $11,088 = 1 + 1 + 8 + 8 = 18$ NJS
18. 14×864 (“864” is another number of the NJMatrix = the Diameter of the Sun) = $12,096 = 1 + 2 + 9 + 6 = 18$ NJS
19. 14×954 (“954” is another number of the NJMatrix = the Distance @ apogee between the Earth and the Sun as in 95,040,000 miles) = $13,356 = 1 + 3 + 3 + 5 + 6 = 18$ NJS
20. 14×1335 (“1335” = “Blessed is he who waits, and comes to the one thousand three hundred and thirty-five days” found in Daniel 12:12 – it is the time of the Marriage Supper of the Lamb (the Reception) bringing Israel and the Church into visible expression to all) = $18,690 = 1 + 8 + 6 + 9 = 24$ (“24” are the “four and twenty elders” of the Revelation or the 12 Patriarchs of the Tribes of Israel and the 12 Apostles of the Lamb, the Church – thus, 14×1335 culminates the bringing together after the 4,000 years from Abraham until the 1335th day of Daniel’s Prophecy of Israel and the Church as His Bride, the Holy City, New Jerusalem – Paradise.)
21. NOTE: The author has designed what is called “The New Jerusalem Matrix” (NJM) comprised of those “number sets” which are directly and/or indirectly related to the Dimensions of Paradise and which integrate Sacred Objects of Holy Writ with these dimensions – e.g., Noah’s Ark, the Ark of the Covenant, the Tabernacle in the Wilderness, the Temples of Israel, and other biblical numbers of import. These numbers and number sets reveal the Mind of God in collaborating His designs for His Ultimate Intention in the framework of the New Jerusalem both in “time and space” – the NJM will be forthcoming at the end of 2011. What you have viewed here is but a “sample” of these types of configurations.

Perimeter (#1)

$$108 = 18 \text{ NJS or } 27 + 27 + 27 + 27 = 108$$

$$\text{Heights (14) x Base (27) = } 14 \times 27 = 378 = 3 + 7 + 8 = 18 \text{ NJS}$$

Each Δ view of the ICP is by definition 180° per each of its four Δ 's and each of its several base angles of these four Δ 's, given its base and [leg dimensions is \$46^\circ\$](#) or 92° per each Δ and the peak of each of its Δ 's is 88° each; therefore, $92^\circ \times 4 = 368^\circ = \text{“15”}$ (as in $3 + 6 + 8 = 15$) and $15 = \text{The Edge of the New Jerusalem*}$ and $3 \times 6 \times 8 = 144 = \text{The Wall of the New Jerusalem}$ ([Revelation 21:17](#)). The four 88° Δ 's which constitute the ICP's peak or Capstone are calculated in this manner: $88^\circ \times 4$

= 352° and $3 \times 5 \times 2 = 30^\circ$ and $30 =$ The Commencement of the Ministry of Messiah at 30 Years of Age ([Luke 3:23](#)), the age of Levitical priestly initiation.

Perimeter (#2)

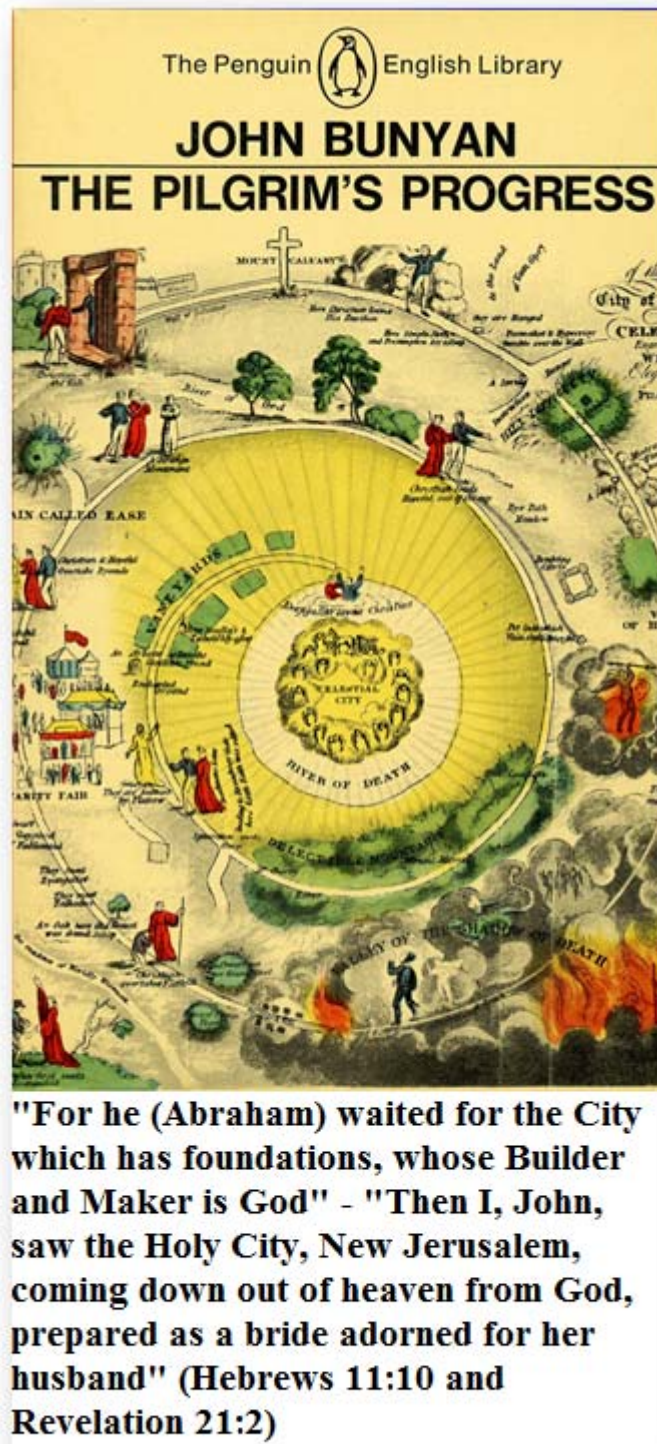

The four triangles of the Pyramid are configured as follows:

Base = 27 units
 Lateral Angles/Legs =
 $19.3713 \text{ ea. or } 2 \times 19.3713 =$
 $38.7426 + 27.0 \text{ (base units)}$
 $= 65.7426 = 6 + 5 + 7 + 4 +$
 $2 + 6 = "30"$ which
 complements the 30 of the
 Capstone and is, once again
 a clear picture of the
 Commencement of
 Messiah's Ministry – a
 picture of Christ.

Multiplication of this one
 triangle perimeter x four in
 view = $65.7426 \times 4 =$
 262.9704 (all four triangle
 perimeters) = $2 + 6 + 2 + 9$
 $+ 7 + 4 = 30$ or the
 Commencement of
 Messiah's Ministry.

Lateral angles of ICP:

$19.3713 \text{ units} \times 4 \text{ slanted}$
 lateral angles (viewing from
 the top down) = $77.4852 = 7$
 $+ 7 + 4 + 8 + 5 + 2 = "33" =$
 The Cardinal Number of
 Messiah at the "Cutting Off"
 of Messiah, the Prince, [Daniel 9:26](#) at the Age of 33 after 3.5 Years of Ministry.

Therefore, from the Capstone (30) to its four lateral sides, the ICP reflects Messiah, the Prince.

Each of the Δ in appearance = 180° or 18 NJS and there are four such Pyramidal Δ 's; therefore, $4 \times 18 = 72$ (1° in years of the Great Precessional's 25,920 years / $360^\circ = 72$ years) or $18 \times 18 \times 18 \times 18 = 104,976 = 27 =$ The Number of Volumes in the Christian Sacred Scriptures revealing the Messiah.

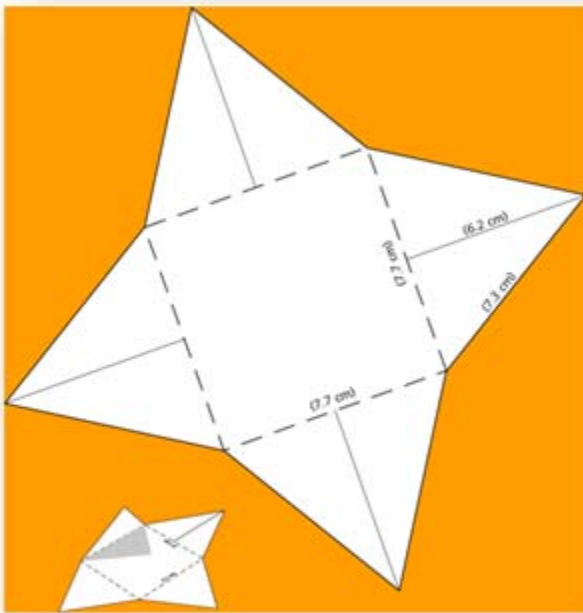

Base of the ICP (270) $\times 3.14 (\pi) = 847.8 = "27" =$ the Number of the Christian Sacred Canon of 27 Books in the Revelation of Messiah.

The Base of the ICP has four 90° angles at each of its corners (flat) = $4 \times 90^\circ = 360^\circ$ flat base angles (total) + each of the four upper triangle sides have 180° each $\times 4 = 720^\circ$ - therefore, $360^\circ + 720^\circ = 1080^\circ = 18$ NJS; likewise, the 360° are the number of degrees in a circle constituting the Eternal God without beginning or ending as in a circle and the $720^\circ = 72$ Years or 1° of the Great Precessional and the Name of God in that 3° of the Circuit = 216 Years = the Name of God.

Volume or Capacity of the ICP:

$270 \times 270 \times 270 = 19683000$ or $1 + 9 + 6 + 8 + 3 = "27" =$ the Sacred Christian Text or the 27 Volumes of the New Testament in the Revelation of Messiah.

Cubing/Squaring of the ICP:

Each Edge/Base Side/Diameter is 27 Units or since it represents years, 270 Years. To find the AREA of one of its six sides we would multiply $270 \times 270 = 72,900$ and $7 + 2 + 9 = 18$ NJS or below...

Six sides of the ICP Cube = $72,900 \times 6 = 437,400 = 4 + 3 + 7 + 4 = 18$ NJS or each $7 + 2 + 9 = 18 \times 6$ (sides) = 108 = 18 NJS.

Likewise, 72,900 in years $\times 360$ -days in a Prophetic Year =

$26,244,000 = 2 + 6 + 2 + 4 + 4 = 18$ NJS; six sides = $437,400 \times 360 = 157,464,000$
 $= 1 + 5 + 7 + 4 + 6 + 4 = 27 =$ the Revelation of Messiah in the Sacred Canon of Christian Scriptures.

The ICP Cube has 12 Edges; therefore $270 \times 12 = 3240 = 3 \times 2 \times 4 = "24"$ = the 24 Elders of the New Jerusalem or the 12 Gates (Names of the 12 Tribes of Israel) and 12 Foundations (Names of the 12 Apostles of the Lamb, the Church).

AREA:

Each of the Four Triangles is calculated by multiplying its base times its height and dividing by 2; therefore: $27 \times 14 = 378 / 2 = 189 = 18$ NJS ($1 + 8 + 9 = 18$) – i.e., each of the four Δ 's of the ICP; therefore: $189 \times 4 = 756$ which is the base in feet of the Great Pyramid of Giza and equal to 18 as in $7 + 5 + 6 = 18$ NJS.

490 Year Cycles (4 each) interact with 360 (the degrees in a circle) and the 144 NJW and the 25.20 of the Sacred Cubit; the "27" (Revelation of Messiah in the Sacred Christian Canon), 30/33 (The Messiah)

1. $490 \times 360 = 176,400 = 1 + 7 + 6 + 4 = 18$ NJS
2. There are 4 such ICP cycles = $176,400 \times 4 = 705,600 = 7 + 5 + 6 = 18$ NJS
3. **756** is precisely the number of feet on one side of the Great Pyramid of Giza Base
4. **756** $\times 4 = 3024 \times 3$ (when cubed) = $9072 = 9 + 7 + 2 = 18$ NJS
5. $490 \times 144 = 70,560 = 7 + 5 + 6 = 18$ NJS
6. $490 \times 25.20 = 12,348 = 1 + 2 + 3 + 4 + 8 = 18$ NJS
7. $490 \times 27 = 1323 = 1 \times 3 \times 2 \times 3 = 18$ NJS
8. $490 \times 30 = 14,700 = 1 + 4 + 7 = 12$ New Jerusalem Cardinal Number as in $12 \times 12 = 144$ or $12 + 12 = 24$
9. $490 \times 33 = 16,170 = "15"$ or one edge of the cubed New Jerusalem as in 1,500 miles
10. NOTE: Many more "number sets" within the New Jerusalem Matrix interact with the 490.
11. NOTE: "49" = $4 \times 9 = 36 = 360^\circ$ or the "circle" representative of the Eternal God without Beginning or Ending; furthermore "49" is the $7 \times 7 = 49$ Years of Each "cycle" leading up to the 50th Year of Jubilee ([Leviticus 25](#)); "49" is representative of the 360° circular "Universal Menorah" found in Zechariah 4 wherein there are "seven lamps with seven pipes to the seven lamps" (i.e., $7 \times 7 = 49$ conduits attached seven each to each one of the seven lamps) expressing the work of the Spirit of God as seen in the Hebrew

Sacred Text ([Zechariah 4](#)) and reflected in its fullness in [Revelation 1](#) with the Son of Man in the midst of the “seven golden lampstands.”) Thus: “49” is the Eternal God’s Expression of Illumination – His Prophetic Masterpiece and Testimony/Witness to the Universe through Israel ([Zechariah 4](#)) and the Church ([Revelation 1](#)) both of whom reflect the Holy City, New Jerusalem and constitute the “expression” of Paradise.

Diagonal Length of the ICP

380.7 Units = 3 + 8 + 7 = 18 NJS

(above calculated by the Square Root of $270 \times 270 + 270 \times 270$)

The Fourteen Generations and the 490 Years

Matthew’s Gospel, wherein the Lion King of Judah is presented, depicts the aforementioned four each 490 year cycles as “generations” in this manner: “The book of the generation of Jesus Christ, the Son of David, the Son of Abraham” ([Matthew 1:1](#)) wherein the Son of David (Messiah) is directly connected with Abraham extending to the “generation of Jesus Christ” (lit. Yeshua HaMashiach).

The “generation of Yeshua HaMashiach” is the final generation so mentioned commencing with Abraham and specifically stating that Yeshua HaMashiach is in the lineage of both Abraham and David. Matthew then summarizes:

“So all the generations from Abraham to David are **fourteen** generations, from David until the captivity in Babylon are **fourteen** generations, and from the captivity in Babylon until the Christ are **fourteen** generations” ([Matthew 1:17](#)).

I am somewhat taken aback – though you must take my word for this (and since I have but God alone to attest to the truth of this statement) – in that the 14 blocks which constitute the ICP were so designed without any of the Matthew 1 generational properties; consequently, we are working backwards to this somewhat mystifying discovery!

The Four Sets of 490 Years are then augmented in approximate chronological time with the Three Sets of 14 Generations from Abraham up to the Generation of Jesus Christ; whereas, the 490 Year chronologies extend from the birth of Abraham until Messiah, the Prince (at 33 years of age) wherein the finality of the final 14 of the third set of 14 generations is therein extended.

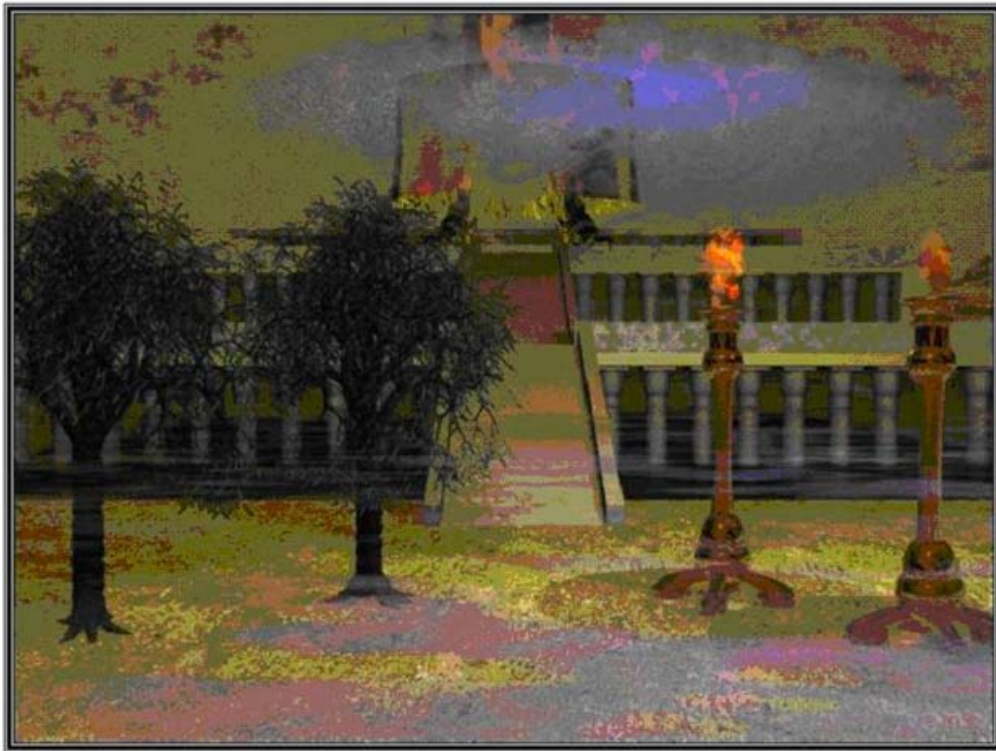

In Matthew's Gospel we are dealing with 3 separate "sets" of 14. In the Hebrew Scriptures from Abraham up through to Jesus unto the Seventieth Week we are dealing with 4 separate "sets" of 490.

$490 + 490 + 490 + 483$ (Less the final Seventieth Week) = 1953 (18 NJS or $1 + 9 + 5 + 3 = 18$)

$1953 + 42$ (3 sets of "14" = 42) = 1,995 = $1 + 9 + 9 + 5 = 24$ and 24 = The "four and twenty" elders of the Revelation or two sets of "12" as in 12 Patriarchs of Israel and the 12 Apostles of the Lamb – i.e., Israel and the Church or the 12 Gates with the Names of the 12 Tribes of Israel and the 12 Foundations bearing the Names of the 12 Apostles of the Lamb, the Church.

An astonishing claim can be made when securing the sum of 1960 (the entire four sets of 490 years) + 42 (the sum of the 3 sets of 14 generations in Matthew's Gospel) = $1960 + 42 = 2002$ wherein we have "two sets of two" which gives a dramatic account of the Two Witnesses of [Revelation 11](#) wherein they are clearly described as:

"These are the **two** olive trees and the **two** lampstands standing before the God of the earth" ([Revelation 11:4](#)).

Please take careful note that these two are described as TWO SETS of 2 wherein the “two olive trees” constitute Israel as a Witness to Gentile World Powers (i.e., the earth) and the “two lampstands” constitute the Church as a Witness to Principalities and Powers in “heavenly places.” They are instantly singular but as witnesses they are two sets of two – each set of two is but one and together they comprise 4 as in $2 + 2 = 4$, which is the number of creation (as in the “four living creatures” of the Apocalypse or the four living creatures of Ezekiel; also, “the four corners of the earth”) – likewise is the Holy City described as 4-Square ([Revelation 21:16](#): “The city is laid out as a square; its length is as great as its breadth...its length, breadth, and height are equal.”)

Furthermore, $49 \times 49 \times 49 \times 49$ (4 sets of 490) = 5,764,801 x 42 (3 sets of 14) = 242,121,642 = 24 = The “four and twenty” elders and their associated representations.

Likewise, $14 \times 14 \times 14 = 2744$ (from Matthew’s 3 sets of 14 generations) (see below for application)

66 Books of Sacred Hebrew and Christian Canon = 66 = 39 + 27...or 51 = 24 + 27...

Thusly, is their sum: $5,764,801$ (4 sets of 490 multiplied) + 2744 (3 sets of 14 multiplied) = $5,767,545 = “39”$ = the 39 Volumes of the Hebrew Sacred Text juxtaposed to the “27” Volumes of the Christian Sacred Text; therefore the 490 and the generations mentioned in Matthew’s Gospel allow us full recognition of the Hebrew Scriptures and their immediate tie-in culminating in the “Generation of Jesus Christ.” Together (39 + 27) these “two witnesses” constitute 66 Sacred Volumes or $66 \times 39 \times 27 = 69498 = 36 = 360 =$ the Eternal God without Beginning or Ending (as in 360° in a circle). Likewise the Two Testaments = $3 \times 9 \times 2 \times 7 = 378 = 3 + 7 + 8 = 18$ NJS – i.e., multiplied together the two Sacred Texts produce as a final product: THE NEW JERUSALEM.

Furthermore, if we take the Hebrew volumes which have been “canonized” by the Jews and consolidated into [24 separate volumes](#) (Note: From the Christian perspective there are some 39 volumes) we arrive at a most amazing calculation in that $24 + 29 = 51$; however, we then multiply these figures once again and this is what we see:

51 (total Sacred Canon of Hebrew and Christian volumes) x 24 (Jewish Canon) x 27 (Christian Canon) = $51 \times 24 \times 27 = 33,048$ or “18” (as in $3 + 3 + 4 + 8 = 18$) which is the very Standard of the New Jerusalem; therefore, our preference is the Hebrew “24” to the Christian “39” of the so-called Old Testament or the Hebrew Scriptures – in both cases (“69498) = “36” and $33,048 \div “18”$) we can declare that the Eternal God is after the New Jerusalem. The Sacred Canon of both the Hebrews/Jews and the Christians attest to this fact. Likewise, when we multiply the Hebrew Sacred Canon by the Christian Sacred Canon we see the following: $24 \times 27 = 567 = “18”$ ($5 + 6 + 7 = 18$) which, again, is the Standard Number of the New Jerusalem, leaving us little doubt that the supreme Purpose of God Almighty in bequeathing to us the Sacred Texts via divine revelation of both Hebrew and Christian Canon was and is to prepare both Israel and the Church for the New Jerusalem!

The 3 Sets of 14 and the 4 Sets of 490 Integration

Naturally, it is of interest as to the division of the generations into the “490 calculations” – for example:

1553 Years (excluding the final Seventieth Week of the original 4 sets of 490 less 7 years) / $42 = 46.5$ or $4 \times 6 \times 5 = 120 =$ the Great Assembly or Great Synagogue of Nehemiah*** or the 120 meeting in the Upper Room in [Acts 1:15](#); also, 1560 Years (the full 4 sets of 490) x 42 (3 sets of 14 generations) = $65,520 = 6 + 5 + 5 + 2 = 18$ The New Jerusalem Standard – most extraordinary!

Therefore, from Abraham to Jesus the history of Israel is reflected in both the “12” or two sets of 120 (Israel and the Church), as well as a dramatic integration that produces the 18 of the New Jerusalem Standard – i.e., the history of Israel and those of Messiah “unto the final Seventieth Week of Daniel’s prophecy” inexorably march toward their final destination: The New Jerusalem.

*/** = The dimensions of the New Jerusalem taken from [Revelation 21:16-17](#) state the following: “The city is laid out as a square; its length is as great as its breadth. And he measured the city with the reed: twelve thousand furlongs. Its length, breadth, and height are equal. Then he measured its wall: one hundred and forty-four cubits, according to the measure of a man, that is, of an angel.”

One furlong = 660 Feet; therefore $12,000 \times 660' = 7,920,000' / 5280'$ (Feet in a Statute Mile) = 1,500 Miles (one edge of the 12-edged New Jerusalem) x 12 edges = 18,000 Miles = 18 The New Jerusalem Standard or NJS; whereas 1,500 Miles = 15 The New Jerusalem Edge or NJE

*** The unanimous voice of Jewish tradition agrees with the Talmud that "the Great Synagogue" ([Nehemiah 10:1-10](#)) consisted of 120 members:

"It was called 'Great' because of the great work it affected in restoring the Divine law to its former greatness, and because of the great authority and reputation which it enjoyed." (Jerusalem Berachoth, ii. 4; Jerusalem Megilla, i; Bab. Meg. 176.)

The great Synagogue's greatest work was in completing the [Canon of the Old Testament](#). The Great Synagogue lasted for several years, roughly from the latter days of Nehemiah the prophet to the death of Simon the Just. It then passed into the Sanhedrim (Sanhedrin) when its whole constitution was changed. It is the express purpose of this author for Hebrew/Jews to "search the Scriptures" – their own – not simply to read the commentaries – and the same for Christians. For centuries Christians were told that only the priests had access to these Sacred Texts and they were not allowed to be published in the common vernacular – the same goes for the Seed of Abraham, who as the Christians, have found themselves so elevated from the Word of God (as if the Almighty had selected only the most noble of souls to dissect and research its pages and to comment thereon) – God forbid! His Word is God-breathed and is altogether profitable for the believer to be nourished thereby in devotional and expressive living – NEVER, should it be locked within tradition and astute commentary – it is for the common man and woman – for all humanity.
